reading the want ads in the Telegram,

before starting out to find a boarding

house.

GATUN LOCKS NOW NEARING COMPLETION ARE SO BIG THAT MEN WORKING UPON THEM APPEAR AS UNDER-SIZED PYGMIES

An adequate conception of the immensity of the engineering feat that is being accomplished by our government engineers at Panama can hardly be gained by looking at photographs. One must actually see the work that is being done. Some idea may be gained, however, from a study of the above photograph, which is the latest from Panama. In this picture are shown the Gatun upper locks. Three sets of gates are in process of construction. The men who are working on the locks appear as pygmies in comparison with the great walls of steel and concrete. The railway at the bottom of the canal looks like a thread.

RECEIPTS

Of Live Stock in Western Markets Greatest Since the Year, 1907.

WASHINGTON, D. C., May 31—

The live stock receipts at the seven

principal western markets, namely,

Chicago, Kansas City, Omaha, St.

Louis, St. Joseph, St. Paul and

Sioux City, as reported to the Bu-

reau of Statistics, Department of

Commerce and Labor, in April, 1912,

were greater than those of any

April since 1907. Furthermore,

the aggregate receipt of stock at these

seven markets during the four

months of the present year were

greater by far than during the four

months of any year during the last

decade; the receipts of April, as well

as those of March and February,

having been somewhat less than

those of January, which are un-

usually large. The receipts in April,

1912, which include cattle, hogs,

sheep, horses and mules, were 3,

238,600 head, a gain of over 3 1-2

per cent when compared with 3,

123,938 head received in April,

1911, and of nearly 45 per cent

when compared with 2,234,907 head

received in April, 1910. The total

receipts at these markets during the

four months of the present year

were 15,123,769 head, an increase

of 13 1-2 per cent over the receipts

during the same period in 1911, and

40 per cent over those in 1910.

The receipt of cattle and calves at

these markets in April, 1912, 637,

022 head, show a very slight increase

when compared with the April re-

ceipts of the two preceding years.

The receipts of cattle and calves for

the four months of the present year,

however, 2,626,648 head show a

slight decline when compared with

the receipts during the same period

in previous years. The April, 1912,

receipts of cattle show an increase in

Chicago, St. Louis, St. Paul and

Sioux City and a decrease in Kansas

City, St. Joseph and Omaha, when

compared with the receipts in April,

1911.

While the number of hogs re-

ceived at the seven principal markets

meat live stock in April, 1912, were

show a steady decline since January,

Boston 117,077 head, New York

1912, the receipts in April of this

year, as well as the aggregate re-

Baltimore 98,849 head.

The April, 1912, shipments of

present year, show a considerable

packing-house products from Chic-

increase over the receipts during

similar periods in recent years, the

April 1912, receipts being the large-

est of any April during the last

decade. Thus the number of hogs

received in April was 1,706,917

head in 1912, as compared with 1,

698,728 head in April, 1911, and 1,

706,917 head in April, 1910.

Chicago, Omaha, St. Joseph, St.

Paul and Sioux City show an in-

crease, while Kansas City and St.

Louis show a decrease in April,

1912, when compared with April,

1911.

The number of sheep received at

the seven principal western markets

in April, 1912, 850,676 head, is

greater than the number received in

any April during the last decade.

Likewise, the receipts during the

four months of the present year

were greater than the receipts

during similar periods in recent

years. The increase in the April,

1912, receipts over those of April,

1911, was most marked in Chic-

ago and Omaha. Kansas City re-

ported a slight increase while St.

Louis, St. Joseph, St. Paul and

Sioux City reported a decrease in

the receipts of sheep at those

markets.

The April receipts of horses and

mules at the seven principal western

markets, 43,985 head, were greater

than the April receipts for a number

of years, and the general trend in

the horses and mules in recent years

has been slightly upward, as com-

pared with the same of the preced-

ing year.

The number of loaded live stock

cars received at the seven markets

in April, 1912, was 52,229, com-

pared with 52,521 in April, 1911,

and 41,961 in April, 1910.

The receipts of meat live stock at

the four leading Atlantic Seaport

cities of Boston, New York, Philadel-

phia and Baltimore, during April,

1912, 684,041 head, show an in-

crease over the April receipts for a

number of years past. Likewise,

the receipts at these ports during

the first four months of the present

year were exceptionally large. The

April receipts show a decline in Bos-

ton and an increase in each of the

three other ports when compared

with the receipt in April, 1911. In

City, St. Joseph and Omaha, when

compared with the receipts in April,

1911.

While the number of hogs re-

ceived at the seven principal markets

meat live stock in April, 1912, were

show a steady decline since January,

Boston 117,077 head, New York

1912, the receipts in April of this

year, as well as the aggregate re-

Baltimore 98,849 head.

The April, 1912, shipments of

present year, show a considerable

packing-house products from Chic-

go, 164,889,600 pounds, show an in-

crease when compared with the

shipment of April of the two pre-

ceding years. There was a very

marked increase in the shipment of

fresh beef.

The stock of meat on hand in

April, 1912, 330,427,047 pounds,

was less than in February or March

of the current year, but much

greater than in April of each of the

two preceding years.

The value of domestic meat ani-

mals exported in April, 1912, \$
